In order to use the surveillance service in the Google Chrome, please follow the steps below:

1. First, go to <http://maruyama.myqnapcloud.com:86/cgi-bin/QMon.exe> to download the file.
2. To ensure that the installation process can be completed successfully, please close all browser windows.
3. Run the installation program.
4. After installation is completed successfully, restart Google Chrome and connect to the QNAP device by its IP address to start the surveillance function.

* For best system performance, please upgrade to the latest version.

QVR VS-2212 Pro+

Clique no link que aparecerá na tela

<http://maruyama.myqnapcloud.com:86/cgi-bin/Qmon.exe>

Salve o arquivo e execute a instalação (não tenha medo, pois não tem vírus)

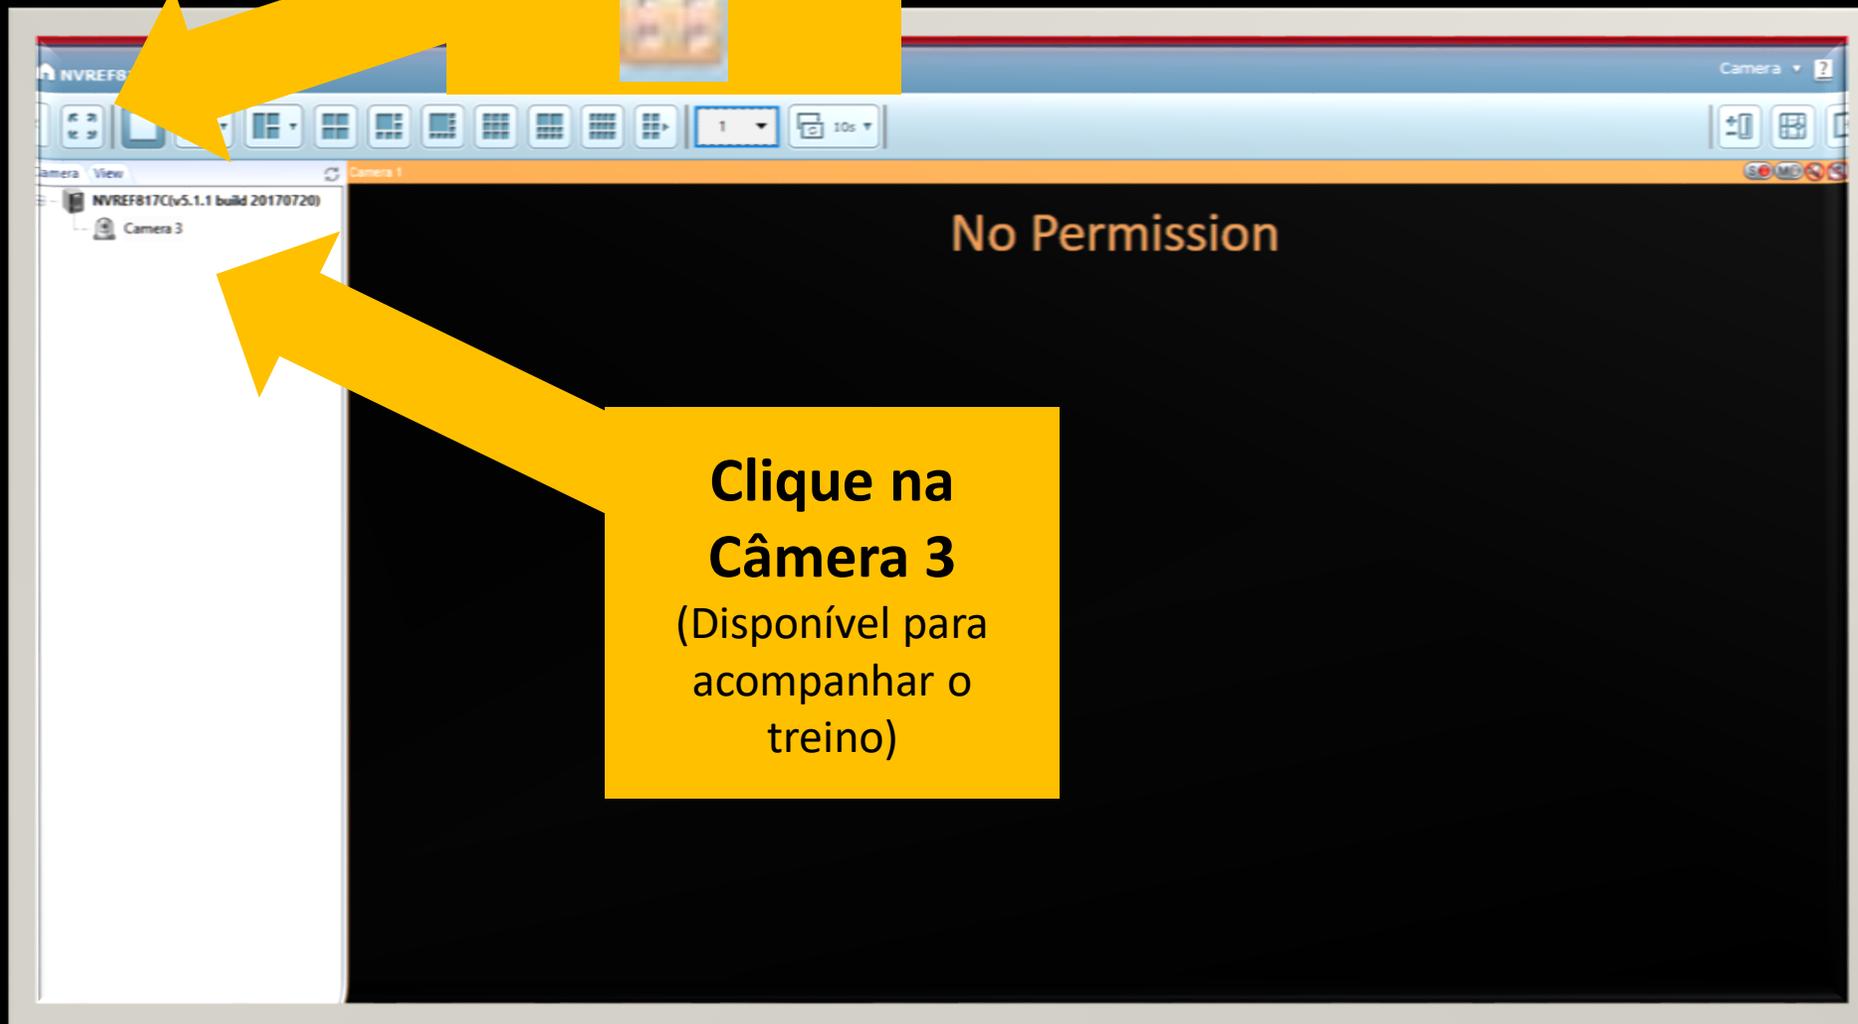

The image shows a screenshot of a QVR interface. At the top left, there is a home icon and the text "NVPREF817C". At the top right, there is a "Camera" dropdown menu and several status icons. The main area of the interface is a blurred, colorful background. In the bottom right corner, the text "QVR VS-2212 Pro+" is visible. A yellow callout box is overlaid on the interface, containing the text "Volte nesta tela e clique novamente no mesmo ícone" and a small icon of a computer monitor. A large yellow arrow points from the callout box to the monitor icon in the top navigation bar.

Volte nesta tela e clique novamente no mesmo ícone
